E-commerce AI Prompt Pack

Copy-paste AI prompts for everyday store work: product copy, reviews, ads, support, SEO, social and data.

How to use: paste a prompt into your AI assistant, replace every [BRACKET] with your real details, and add your brand voice notes. Give the AI facts; never let it invent specs, prices, reviews or policies. Review every output before it goes live.

Product descriptions

#01 Benefit-first description

```
Write a product description for [PRODUCT] for [TARGET CUSTOMER]. Facts:
[FEATURES/MATERIALS/SIZES]. Structure: 1-sentence hook, 3 short paragraphs, 5 benefit bullets.
Tone: [TONE]. Do not add facts I did not give.
```

#02 Title optimizer

```
Suggest 5 product titles under 70 characters for [PRODUCT] that include the main search term
'[KEYWORD]' naturally and highlight the key differentiator [DIFFERENTIATOR].
```

#03 Feature → benefit

```
Turn these features into customer benefits, one line each, in plain language: [FEATURE LIST].
```

#04 Bulk variations

```
Here is a description template [PASTE]. Create versions for these variants: [COLOR/SIZE LIST].
Change only what differs; keep the structure and length.
```

#05 Translate & localize

```
Translate this product description into [LANGUAGE] for shoppers in [COUNTRY]. Adapt units,
idioms and tone naturally; keep product facts exact: [PASTE].
```

#06 Size & fit helper

```
Write a short size and fit guide for [PRODUCT] using this measurement table [PASTE]. Include
how to measure and what to do if between sizes.
```

Reviews & negative review replies

#07 Reply to a negative review

```
Write a calm, empathetic public reply to this review: [PASTE]. Acknowledge the issue, avoid arguing, don't admit legal fault, offer a next step via [CONTACT METHOD]. Under 80 words.
```

#08 Reply to a positive review

```
Write 5 varied, short, genuine thank-you replies to positive reviews like this one: [PASTE]. No copy-paste feel, under 40 words each.
```

#09 Review theme analysis

```
Here are [N] customer reviews [PASTE]. Group them into themes (quality, shipping, sizing, etc.), count mentions, quote one example per theme, and list the top 3 fixes I should consider.
```

#10 Review request message

```
Write a friendly review request email and SMS sent [X] days after delivery of [PRODUCT]. Keep it short and make leaving a review easy. Do not offer incentives in exchange for positive reviews.
```

#11 Turn feedback into FAQ

```
From these reviews and questions [PASTE], write 5 FAQ entries for the product page that address recurring concerns honestly.
```

Ad copy

#12 Meta ad set

```

```
Write a 30-second UGC-style video script for [PRODUCT]: hook, problem, demo, result (no exaggerated claims), call to action. Include shot directions.
```

#16 Angle brainstorm

```
List 10 distinct marketing angles for [PRODUCT] for [AUDIENCE], with a one-line ad example for each.
```

#17 Ad compliance check

```
Review this ad copy for claims that could be misleading or break typical ad platform policies (health, before/after, guarantees, personal attributes): [PASTE]. Suggest safer wording.
```

Customer support

#18 Order status reply

```
Write a reply for a customer asking where their order is. Order status: [STATUS], tracking: [LINK PLACEHOLDER], expected: [DATE]. Warm, under 70 words.
```

#19 Refund/return reply

```
Using only this return policy [PASTE], reply to this request [PASTE]. Explain the steps clearly and kindly.
```

#20 De-escalation

```
Rewrite my draft reply to an angry customer so it is calm, empathetic and solution-focused: [DRAFT].
```

#21 Macro library

```
Create 10 customer support macros for a store selling [PRODUCTS], covering the most common questions. Use [PLACEHOLDERS].
```

#22 Ticket triage

```
Classify these customer messages by topic and urgency (high/medium/low), and suggest which reply macro to use: [PASTE MESSAGES].
```

#23 Chatbot knowledge base

```
Turn this policy and product info [PASTE] into a clear Q&A knowledge base an AI chatbot can use. Flag anything ambiguous.
```

SEO

#24 Keyword clusters

```
I sell [PRODUCTS] to [AUDIENCE]. Suggest 30 search keywords grouped by intent (informational, commercial, transactional) and map each group to a page type (product, collection, blog).
```

#25 Meta title & description

```
Write 3 meta titles (under 60 characters) and 3 meta descriptions (under 155 characters) for this page: [PAGE TOPIC + KEYWORD].
```

#26 Collection page intro

```
Write a 120-word intro for the [COLLECTION] collection page, including '[KEYWORD]' naturally and helping shoppers choose.
```

#27 Blog outline

```
Create a detailed outline for a helpful blog post answering '[QUESTION]' for [AUDIENCE], with H2/H3s, key points and where to link to [PRODUCT/COLLECTION].
```

#28 Image alt text batch

```
Write alt text under 125 characters for each image: [LIST].
```

Social posts

#29 Week of posts

```
Create 7 days of social posts for [PLATFORM] for a store selling [PRODUCTS]: mix of product, behind-the-scenes, tips and customer questions. Include caption and visual idea for each.
```

#30 Repurpose content

```
Turn this blog post / product page [PASTE] into 5 short social posts and 1 thread of 5 parts.
```

#31 Caption variants
